

**Beaverdam Flats Natural Area** by Andrew Slater & Joan McDonald, 1993

From the Glenmore Trail head north on 18 St. SE, then left at the T-intersection with 66 Ave. Continue west to the escarpment, where the road then turns north and becomes Lynnview Road. The parking area

and river access is on the left, opposite Lynnview Way. From the parking area follow the paved trail down the escarpment, through the woodland to the southern tip of the flats. This woodland is not as productive as **Carburn Park** in the winter.

The stretch of river from the southern end of Beaverdam Flats north to the Bonnybrook Sewage Treatment Plant can be most rewarding. Rather than follow the paved trail north through the woods look for the system of minor trails along the river's edge.
