

Fall Naturalist and Retirement Dinner for Dr. Johnson

The Barrier Lake Field Station would like to invite you to the Fall Naturalist Day and retirement celebration for Dr. Ed Johnson. The cost is \$30 per person + GST and includes lunch and dinner (Total \$31.50 with tax). Please make cheques payable to "University of Calgary". Register by emailing Adrienne Cunnings - amcunnin@ucalgary.ca.

Day Event Schedule

11:45am Meet at Barrier Lake Field Station Main Lodge

12:00pm Lunch followed by a brief safety talk

1:00pm Tour of the new Science Lab building

1:30pm Talk with University of Calgary's Professor Dr. Musiani

The Musiani lab has a strong focus on landscape ecology, molecular ecology, and wildlife conservation. Their research demonstrates how highly vagile organisms such as caribou, elk and wolves are ideal study species to recognize Evolutionarily Significant Units, which should also become management and conservation units.

3:30pm History walk with Education Specialist, Sue Arlidge

Join Sue Arlidge for a glimpse back in time when the field station was an active POW camp during World War II. A combination of slides and walk along the history loop will provide a different perspective than the scientific focus of today. Discover remnants of the past and learn about the people captured during the war and how they shaped the current landscape.

5:30pm Retirement dinner for Dr. Ed Johnson

As the dedicated director of the Biogeoscience Institute for 27 years, Ed's effortless contribution has shaped both the Barrier Lake and R.B. Miller field stations to their international renowned status. Staff, colleagues, and friends will gather to celebrate his retirement.
